San José State University

B.S. in Business Administration (Management Information Systems)

GPA: 3.8/4.0 | Dean's Scholar

San Jose, CA

Expected May 2027

TECHNICAL SKILLS

Languages: Python, SQL

Databases: PostgreSQL, MySQL

Data Engineering: ETL, Data Pipelines, Data Modeling, API Integration, Data Cleaning

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib

Tools: Git, GitHub, Power BI, Tableau, Excel

PROJECTS

Music Insights Agent — Active Development

Aug 2026 – Present

Python, PostgreSQL, SQL, Pandas, ETL | GitHub

- Built a data processing workflow to profile and transform **278K+ Apple Music activity records** for structured analysis.
- Analyzed **172K+ PLAY_END events** and cleaned listening data for **PostgreSQL and SQL-based analytics**.
- Developing a **SQL-first analytics agent** that answers natural-language questions using **verified, read-only SQL query results**.

Soccer Data Pipeline

May 2026 – Aug 2026

Python, MySQL, Pandas, API-FOOTBALL | GitHub

- Built an end-to-end ETL pipeline that extracts and transforms 380 Premier League match records from the API-FOOTBALL REST API and loads them into MySQL.
- Designed a MySQL schema using **fixture_id** as the primary key and implemented UPSERT logic to prevent duplicate records across repeated pipeline runs.
- Validated required fields and transformed match dates and goal values with Pandas before database loading.

EXPERIENCE

Operations Manager

June 2026 – Present

Umah Service LLC

San Jose, CA

- Managed scheduling and dispatch operations for 20+ contractors, coordinating transportation requests and resolving conflicts to support reliable daily service.
- Coordinated daily driver assignments and communication among drivers, clients, and transportation partners.
- Partnered with leadership to develop and implement business process improvements.

GSOC Security Specialist

May 2025 – Present

Securitas Technology

LinkedIn Headquarters, San Jose, CA

- Monitored and analyzed real-time security data across multiple systems, documenting incident trends to support risk assessment.
- Coordinated emergency response procedures and operated security systems to protect employees and property.

CERTIFICATION

Google Data Analytics Professional Certificate — Google/Coursera, Aug 2025. Skills: SQL, Tableau, R, spreadsheets, data cleaning, analysis, and visualization.

Credential: coursera.org/verify/professional-cert/SEN3EZJEPCLN
